Parents & Students,

I am excited about the new school year that is ahead of us & I hope that you as well. Calculus is very interesting subject and challenging too. The areas to be covered in AP Calculus AB will be found in college calculus courses. Therefore, this class will provide your student with a foundation for success in future calculus courses. Parents, if there is any way that I can help or if you have concerns about your student, please feel free to let me know. The best means of communication with me is via e-mail. My e-mail address is gwendim@tcjax.org. I look forward to a great academic year!

Mr. Wendim
Instructor
