General Information

Description

Welcome to 8th Grade Pre-Algebra! In this course we focus on the foundational concepts of Algebra including integers, equations, inequalities, transformations, probability, and more. Class objectives will be met through traditional instruction as well as collaborative peer groups.

✓ Tests: 50%

✓ Quizzes: 30%

✓ Homework: 20%

Expectations and Goals

Our class expectations are simple. Have an attitude and expectation to learn, and an openness to having fun while learning math!
